CONSULTING

Practical tools to accelerate leadership thinking.

The Leadership Workshop

What is The Leadership Workshop?

We've taken the highest impact elements from our experience coaching and leading workshops for over 300 leader-managers and teams and put them into a 2-day intensive program supported by 3-months of coaching support and resources.

This program is designed for leader-managers who are:

- **Great executors** who are finding it challenging to shift their focus from day-to-day operations to a higher level of thinking.
- **Time-crunched** and would benefit from new ways of thinking about managerial time and effort, and practical tools.
- **Strong individual contributors** who are now learning how to achieve results through direct reports and peers.
- **Pushed and pulled** in so many directions and need to find a new way of delegating, prioritizing and planning projects.

“

It is really hard to change someone's assumptions. I was told to come to this event and didn't think I would get much out of it. You changed my mind completely.

”

“

The last few days have been full of inspiration, motivation, discovery and excitement to execute these fabulous new tools that will allow me as a leader-manager to go next level with my team.

”

What is included:

During The Leadership Workshop:

- A 2-day intensive in-person program
- The Kolbe Index for instinctive action problem solving and decision-making
- The EQ-i emotional intelligence assessment
- More than 10 practical tools including our most popular, The Project Planner, Role Clarifier, Delegation Tool and Weekly Focus Planning Tool
- Presence and persuasive communication coaching with executive presence coach Briony Glassco

Post-workshop coaching and resources:

- One-on-one Booster Coaching Calls
- 12 Monday Morning Group Focus Calls
- 3 Skills Builder Group Coaching Calls
- 90 day downloadable access to all tools for team impact
